

IMPLEMENTING WEB APPLICATION

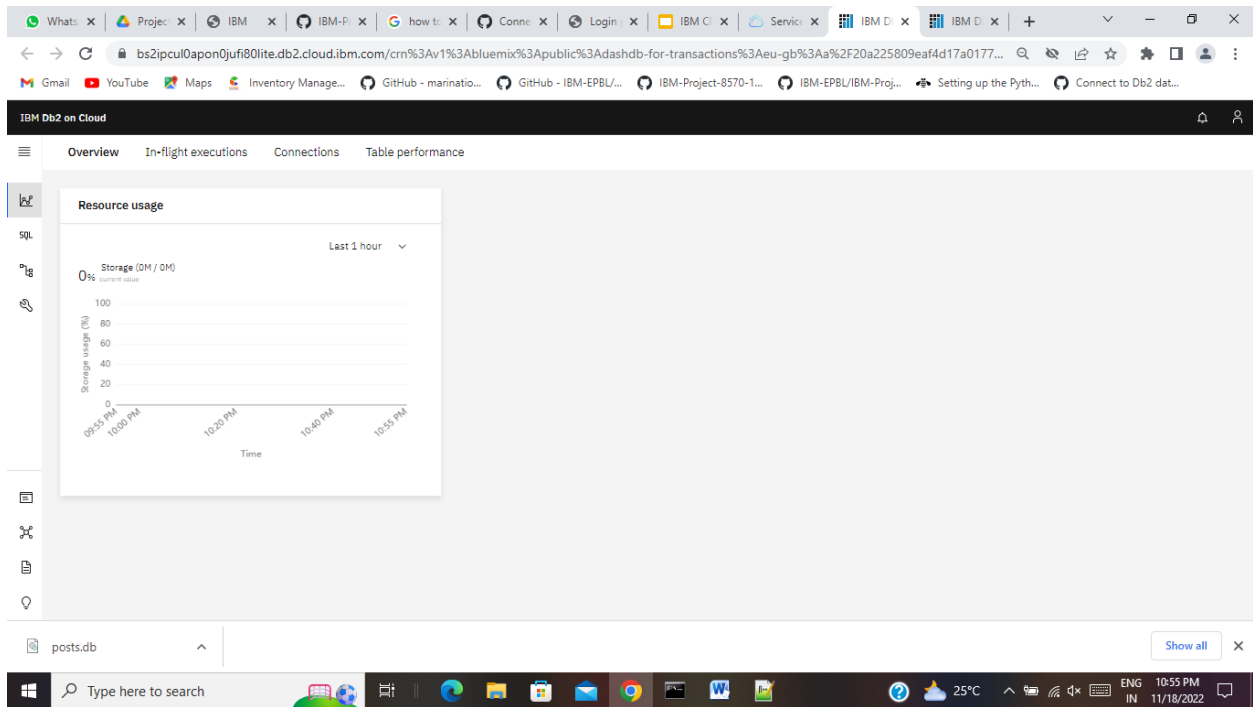

Create IBM DB2 to connect with python

Team ID	PNT2022TMID40335
Project Name	Inventory Management system for Retailers

Steps to create db2

Goto search -> db2 and then click create

The screenshot shows the IBM Cloud dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links for Catalog, Manage, and Shofica L's Account. Below the navigation bar, the main content area displays the 'Db2-14' resource page. The page has a 'Manage' tab selected on the left sidebar, which includes links for 'Getting started', 'Service credentials', and 'Connections'. The main content area is divided into two columns. The left column, titled 'Getting started', contains text about finding credentials and a 'Go to UI' button. The right column, titled 'Need help?', contains text about submitting a support case and a 'Support case' button. At the bottom of the page, there's a Windows taskbar with various application icons and a system tray showing the date and time as 11/18/2022 at 10:54 PM.
